VICK'S WILDGARDENS, although specialists in Naturalistic creations, realize that some grounds do not lend themselves readily to this type of artistry. With this in mind we offer a COMPLETE planting service—one which will place your home in its proper setting.

Your particular problem might well be solved by one of our specialties:

CASUAL GARDENS FOR SUNNY LOCATIONS IN
SHADY NOOKS AND WOODED AREAS

WILDGARDENS

NATURALISTIC ROCKERIES

DRAINAGE CORRECTIONS

NATURAL DAMS, POOLS, AND WATERFALLS

ARTISTIC STEPS, WALKS, BRIDLEPATHS, WALLS,

BRIDGES, PATIOS AND TERRACES

Members of:

AMERICAN ASSOCIATION OF NURSEYMEN
PENNSYLVANIA NURSEYMEN'S ASSOCIATION
NATIONAL LANDSCAPE NURSEYMEN'S ASSOCIATION
PENNSYLVANIA HORTICULTURAL SOCIETY
PHILADELPHIA FLOWER SHOW, INC.
NATIONAL ARBORISTS' ASSOCIATION
NATIONAL SHADE TREE CONFERENCE

For conserving existing beauty, your priceless shrubs, fruit and ornamental trees are worthy of the best scientific treatment.

We do:

Feeding

Pruning

Cabling

Cavity work

Dusting for control of insect pests.

It is Good Economy to Have Your Work Properly
Planned and Skillfully Executed

In addition to our regular service, we now offer a consulting department which will be glad to render free advice concerning native plants and naturalistic landscaping. This is done when the plants are purchased from, or work is done by Vick's Wild-gardens. Expense charges are made where distant travel is involved. Nominal charges are made for those who desire only our technical and horticultural advice.

Nursery Grown Wildflowers

Alumroot

Interesting, short stemmed foliage, forms splendid ground cover. Inconspicuous flower rising on long stem appears between May and August. Native of dry woodland from Canada to Alabama.

35c ea. \$1.00 per 3 \$3.75 per 12

Alumroot

Anemone, Rue

This fairy-like, white flower, appearing from March to May, is so dainty it would seem that it must perish in the sharp winds of late spring, but is a very hardy and an extremely satisfactory plant. Grows naturally in the deep woods from New Hampshire to Minnesota.

35c ea. \$1.00 per 3 \$3.75 per 12

Anemone, Rue

Anemone, Tall; Thimbleweed

This beautiful plant deserves great popularity. Its dainty, white blossoms appear during May, June, July and August. It grows naturally in open, dry woods or thickets from Canada to South Carolina.

35c ea. \$1.00 per 3 \$3.75 per 12

Arbutus

Arbutus, Trailing, Mayflower

The delicate beauty of this rare plant has fascinated flower lovers for generations. It must have extremely acid soil. Grows close to the ground and ultimately forms a solid mat of rich, dark green leaves which are evergreen. The shell-pink blooms appear in April and May. Grows naturally in the loose soil of woodlands from Canada to Florida. Because of an unknown bacteria which should be present in the soil this flower proves difficult to raise.

50c ea. \$1.40 per 3 \$5.50 per 12

Anemone, Tall

Arrowhead

One of our most beautiful aquatic plants. White blooms appear from July to September. Long popular for shallow pools and lily ponds.

35c ea. \$1.00 per 3 \$3.75 per 12

Aster, New England

This magnificent, rich purple aster makes a grand show in the moist meadows and bogs blooming from late August to October. Is native from Canada to Alabama, west to Colorado. Grows 3 to 3½ feet high.

35c ea. \$1.00 per 3 \$3.75 per 12

Aster, New England

Arrowhead

Baneberry, Red

A handsome plant throughout the summer. Dainty, lace-like, white blooms appear April to June and are later followed by bright red fruit. Native of woodlands from Canada to Pennsylvania.

Baneberry, White

Similar to the Red Baneberry, but bearing white berries tipped with purple.

35c ea. \$1.00 per 3 \$3.75 per 12

Baneberry

Nursery Grown Wildflowers

Bellwort

Bellwort, Large-flowered

This fascinating plant usually grows 6 to 18 inches high. The bell-shaped flowers are a rich yellow and appear during April and May. Native of the rich woodlands from Canada to Georgia.

35c ea. \$1.00 per 3 \$3.75 per 12

Bellwort, Sessile-leaved

This rather rare, delicate, nodding, yellow bell-shaped flower grows best along stream banks where there is occasional silt deposit. Flower stem grows 4 to 12 inches high from Canada to Georgia and blooms usually in May.

35c ea. \$1.00 per 3 \$3.75 per 12

Sessile-leaved Bellwort

Bergamot, Wild

Usually grows about 2 feet in height. Attractive, pale, lavender blooms appearing June to September make a beautiful display on dry, open hillside. Should not be planted near cultivated garden. Native from Maine to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Bergamot

Bittersweet

Very attractive, woody vine bearing ornamental, orange scarlet berries in the fall. Native of eastern United States, will live in woodland shade but grows more luxuriantly and bears more prolifically in the open sun.

35c ea. \$1.00 per 3 \$3.75 per 12

Bittersweet

Bloodroot; Puccoon-Root

This spring favorite is a native of rich, wood soil from Canada to Florida. Its 1 to 1½ inch, white blooms rising above broad, light green leaves are an addition to any garden. It blooms in April and May.

35c ea. \$1.00 per 3 \$3.75 per 12

Blue Cohosh

Usually 1 to 2½ feet high. Shallow rooted. Excellent ground cover in woodland. Will form thick mats on top of huge rocks. Dainty, blue flowers appear in April and May. Native from Canada to South Carolina.

35c ea. \$1.00 per 3 \$3.75 per 12

Boneset, White or Common

Showy white flowers appear July, August, and September, borne on a 2 to 5-foot stem with rough, dark green leaves. Grows naturally in wet lowlands, moist meadows, and bogs, Canada to Florida. Excellent for distant meadow but coarse for intimate plantings.

35c ea. \$1.00 per 3 \$3.75 per 12

Bowman's Root; Indian Physic

This fascinating plant grows 2 to 4 feet high. Is most attractive when the white blooms appear in June and July. Native of the woods from Canada to Georgia.

35c ea. \$1.00 per 3 \$3.75 per 12

Bowman's Root

Bloodroot

White or Common Boneset

Nursery Grown Wildflowers

Swamp or Marsh Buttercup

Wild Carnation

Yellow Clintonia

Coneflower

Dutchman's Breeches

Buttercup, Swamp or Marsh

One of the most colorful of our bog plants. Luxuriant foliage. Golden yellow flowers April, May, June, July. Native of swamps and wet meadows from Canada to Georgia.

35c ea. \$1.00 per 3 \$3.75 per 12

Butterfly Weed; Pleurisy Root

One of the most spectacular of all wild flowers. Plant 1 to 3 feet high. Brilliant orange blooms appearing during July, August, and September. Native of dry, open fields from Maine to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Carnation, Wild

An importation from Europe which has naturalized over a wide area. An attractive, small, red, single bloom on a stem 12 to 14 inches high. Prefers dry, sunny locations.

35c ea. \$1.00 per 3 \$3.75 per 12

Clematis, Wild; Virgin's Bower

Fascinatingly dainty vine, is very hardy. Blooms profusely and grows rapidly. Flowers July, August, September. Prefers full sun and is native from Canada to Georgia.

50c ea. \$1.40 per 3 \$5.50 per 12

Clintonia, Yellow; Dogberry

Low plant, seldom growing over 12 or 15 inches in height. Beautiful, thick, green leaves. Small, yellow flowers, followed by blue berries, appear in May and June. Is native from Canada to North Carolina.

35c ea. \$1.00 per 3 \$3.75 per 12

Columbine, Wild; Rock Bells

Colorful and dainty, charming combination of red flowers tipped with yellow and delicate, small, light green leaves. Very satisfactory. Native of rocky woodlands from Canada to Florida.

50c ea. \$1.40 per 3 \$5.50 per 12

Coneflower

Handsome plant sometimes from 9 to 12 feet in height. Has a golden yellow bloom appearing July, August, and September. Native in moist, open woods and along stream banks.

50c ea. \$1.40 per 3 \$5.50 per 12

Dog's-tooth Violet; Trout Lily

This violet is actually a member of the lily family. Interesting, mottled leaves. Yellow flower appearing in April and May. Native in wet woods and along shady stream banks from Canada to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Dutchman's Breeches

A delicate plant with dainty, fernlike leaves and graceful white blossoms which appear in April and May. Native in the rich woodlands from Canada to North Carolina, westward to Missouri.

35c ea. \$1.00 per 3 \$3.75 per 12

Butterfly Weed

Wild Clematis

Columbine

Dog's-tooth Violet
Trout Lily

Nursery Grown Wildflowers

Flag, Larger Blue

This splendid violet-blue iris blends beautifully with a natural setting. Plant stands 2 to 3 feet in height. It is a native of swamps, bogs, and wet meadows from Canada to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Foam Flower; False Miterwort

One of the most charming ground covers for deep shade. Dainty white flowers on stems 1 to 4 inches high. Grows naturally in the deep, rich soil of damp woods from Canada to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Forget-Me-Not; Mouse-Ear; Scorpion Grass

Small plant with dainty, blue flowers which appear May to July. Native along slow streams, in bogs, and wet meadows from Canada to Tennessee.

35c ea. \$1.00 per 3 \$3.75 per 12

Galax

An unusual ground cover for shade and partial shade. Fascinating, rounded glossy leaves. Foliage changes color in the fall. Flowers creamy white spike. Blooms early summer.

50c ea. \$1.40 per 3 \$5.50 per 12

Gentian, Closed Blue or Blind

This admirable plant, 2 to 4 feet high, has deep, rich blue flowers which appear in August, September and October. Native of wet meadows from Canada to Georgia.

50c ea. \$1.40 per 3 \$5.50 per 12

Geranium, Wild; Wild or Spotted Crane's Bill

The Wild Geranium, with its deeply indented leaf and its lavender, pinkish bloom, always seems to inject just a little gayer note of springtime into the intimate, shady garden. Native of rich woodlands from Maine to Georgia.

35c ea. \$1.00 per 3 \$3.75 per 12

Ginger, Wild or Indian

Excellent ground cover for rocky, shady bank or rocky stream bank beneath woodland shade. Inconspicuous, dark red flowers appear May and April. Native of rich wood soil from Canada to North Carolina.

35c ea. \$1.00 per 3 \$3.75 per 12

Hepatica

Leaves, 2" to 2½ inches from the ground, last well through the season and often most of the winter. Delicate blue or pinkish-blue blooms appear above the leaves in March and April. Native of the deep woods from Canada to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Herb Robert

Small bright purplish-red flowers, dainty, graceful foliage. Blooms appear in late spring or early summer. Is native of the moist rocky woodlands, Canada to Pennsylvania, westward to Missouri.

35c ea. \$1.00 per 3 \$3.75 per 12

Larger Blue Flag

Forget-Me-Not

Blind Gentian

Wild Ginger

Herb Robert

Foam Flower

Galax

Wild Geranium

Hepatica

Nursery Grown Wildflowers

Honeysuckle, Trumpet or Coral

A high climber with a most brilliant scarlet flower arranged in clusters with rounded, dark green leaves. Has scarlet berries, ripening in the autumn. Blooms May or June. Native of open woods and lowlands from Maine to Florida.

50c ea. \$1.40 per 3 \$5.50 per 12

Indian Cucumber Root

Attractive leaves, whorled on slender stem, 1 to 2½ feet high. Small, yellow flower appears May and June, followed by dark blue fruit. Native of moist woods throughout eastern United States.

35c ea. \$1.00 per 3 \$3.75 per 12

Indian Pipe; Corpse Plant

A ghost-like flower. Stem, leaves, and bloom are white. Appears June to August in deep woods throughout the United States. Lives on decayed, organic matter. Available only in July and August.

50c ea. \$1.40 per 3 \$5.50 per 12

Iris Cristata

Justly prized creeping iris. Light blue flower appears April and May. Native of the mountains of Virginia, Kentucky and the Carolinas.

35c ea. \$1.00 per 3 \$3.75 per 12

Ironweed

Handsome plant 3 to 9 feet high. Rich, deep purple flowers appearing August to October. Native of open swamps and wet meadows of the eastern United States.

35c ea. \$1.00 per 3 \$3.75 per 12

Jack-in-the-Pulpit

An old favorite beloved by youths and parents alike. Showy green and brown striped hood appears in June followed by a magnificent cluster of shining, red berries. Native of moist woods throughout eastern United States.

35c ea. \$1.00 per 3 \$3.75 per 12

Jacob's Ladder, American

Flowers, mauve blue, appear May, June, and July. Native of wet meadows throughout eastern United States.

50c ea. \$1.40 per 3 \$5.50 per 12

Joe Pye Weed; Purple Boneset

A pinkish-purple haze over the meadow when in bloom during August and September, 3 to 6 feet high. Extremely decorative for open, moist ground not in immediate vicinity of more delicate garden. Native throughout eastern United States.

35c ea. \$1.00 per 3 \$3.75 per 12

Lady's-slipper, Pink

Matchless orchid-pink, this bloom appears in June. Requires very acid soil, either sandy or rocky. Native of woodlands, Canada to North Carolina.

60c ea. \$1.75 per 3 \$6.90 per 12

Coral Honeysuckle

Indian Pipe

Ironweed

American Jacob's Ladder

Pink Lady's-slipper

Indian Cucumber Root

Iris Cristata

Jack-in-the-Pulpit

Joe Pye Weed

Nursery Grown Wildflowers

Showy Lady's-slipper

Philadelphia Lily

Wild Lily of the Valley

Blue Lobelia

Lousewort

Lady's-slipper, Showy

Pink and white bloom of rare charm. Flowers appear June and July. Native of swamps and open woods, Canada to Georgia, westward to Minnesota.

60c ea. \$1.75 per 3 \$6.90 per 12

Lady's-slipper, Yellow

Gorgeous bit of sunlight from the sky caught in each yellow bloom. Flowers appear May and June. Native of rich, moist woods, Canada to Alabama, westward to Nebraska.

60c ea. \$1.75 per 3 \$6.90 per 12

Lily, Philadelphia

This stunning lily is one of the most spectacular blooms of the deep woods or open hillsides. Grows 1 to 3 feet in height. Reddish-orange flower appearing in July. Native of woods, Maine to North Carolina.

50c ea. \$1.40 per 3 \$5.50 per 12

Lily, Turk's Cap

One of the gayest lilies and a profuse bloomer, 6 to 8 feet tall. Excellent for shade or sun. Native of eastern United States.

50c ea. \$1.40 per 3 \$5.50 per 12

Lily of the Valley, False or Wild; Two leaved Solomon's Seal

Beautiful ground cover, waxy, green leaves, spikes of tiny, white flowers appearing in May and June. Native of damp woods from Canada to North Carolina, westward to South Dakota.

35c ea. \$1.00 per 3 \$3.75 per 12

Lily, Wild Yellow, Canada or Nodding

4 to 6 stunning deep yellow flowers from a single stalk rising 2 to 5 feet high, blooming in July and August. Native of bogs and wet meadows, Canada to Georgia, westward to Minnesota.

50c ea. \$1.40 per 3 \$5.50 per 12

Lobelia, Blue or Great

Exquisite, blue flowers on 1 to 3-foot spike appear July, August, September, and October. Native of wet meadows and stream banks from Canada to Louisiana, westward to Kansas.

50c ea. \$1.40 per 3 \$5.50 per 12

Lobelia, Cardinal

A glorious blaze of cardinal when the flowers appear in July, August and September. Prefers deep, rich soil throughout a large part of the United States.

50c ea. \$1.40 per 3 \$5.50 per 12

Lousewort; Wood or Head Betony

Yellow and brown, chrysanthemum-like flowers appearing April, May, and June. Partially parasitic. Grows naturally in deep woods occasionally throughout the eastern United States.

35c ea. \$1.00 per 3 \$3.75 per 12

Marigold, Marsh; Cowslip

The English cousin of this charming golden flower is known on the other side as the "King's Cup." Belongs at the shady end of your pool. Native of bogs from Canada to Carolina.

35c ea. \$1.00 per 3 \$3.75 per 12

Yellow Lady's-slipper

Turk's Cap Lily

Wild Yellow or Canada Lily

Cardinal Lobelia

Marsh Marigold

Nursery Grown Wildflowers

Matrimony Vine

Early Meadow Rue

Virginia Cowslip

Four-leaved Milkweed

Matrimony Vine

Rapid growing colorful vine. Dainty, orchid-colored blooms appear profusely throughout the summer followed by bright red berries. This plant has a wide distribution in the United States. Is thoroughly naturalized though a native of Europe.

35c ea. \$1.00 per 3 \$3.75 per 12

May Apple; Wild Mandrake

An attractive ground cover for heavily wooded hillside where no other plants are required and a quick cover is imperative. Large, decorative leaves almost hiding white blossoms which appear in May and June followed by an edible fruit. The root is poisonous. This highly valued medicinal plant is native of moist woods, Canada to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Meadow Rue, Early

The dainty foliage of this plant is an asset to any spring garden. The blooms are an inconspicuous yellow-green and appear in April and May. Native along wooded stream banks, Maine to Alabama.

35c ea. \$1.00 per 3 \$3.75 per 12

Meadow Rue, Fall

Huge, snowy white, fluffy balls of blooms from July to September borne high on graceful stems with a multitude of dainty, silvery green leaves make this charming plant a sort of fairy green of the summer wild garden. Native of bogs and wet meadows, Canada to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Mertensia, Virginia Cowslip

This extremely popular old favorite is ever beautiful. Its blue flowers, which turn pinkish-purple with age, appear in April and May and form a charming contrast with the large, delicate green leaves. It is a native of open, wet meadows from New York State to South Carolina. The foliage disappears, as do all signs of blossoms, before warm weather, so this plant should never be planted in an exclusive bed.

50c ea. \$1.40 per 3 \$5.50 per 12

Milkweed, Common

The purple blossoms, July to September, form an excellent color effect in distant meadow. Should never be planted in limited garden. Grows from Canada to North Carolina.

35c ea. \$1.00 per 3 \$3.75 per 12

Milkweed, Four-leaved

One of the most delicate and beautiful of all summer-blooming woods flowers. White with dark green leaves. Difficult to transplant. Native of deep woods, Maine to Alabama.

35c ea. \$1.00 per 3 \$3.75 per 12

Orchis, Showy

Dainty, decorative, small orchid growing only 4 to 12 inches high. Purple and white flowers rising from thick, green leaves appear May and June. Native of the rich woodlands, Canada to Kentucky, westward to Missouri.

60c ea. \$1.75 per 3 \$6.90 per 12

May Apple

Fall Meadow Rue

Common Milkweed

Showy Orchis

Nursery Grown Wildflowers

Partridge Berry

Pipsissewa

Bluets

Giant Sarsaparilla

Shooting Star

Partridge Berry; Twinberry; Squawberry

An ideal evergreen creeper, flowers, waxy white, blooming in April, May, June, followed by bright red berries. Native of the woods, Canada to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Phlox, Blue

Light blue flower, 2 to 8 inches high, appears July to September. Should be planted in drifts on gentle wooded slopes. Native from Pennsylvania to Florida westward to Kansas.

35c ea. \$1.00 per 3 \$3.75 per 12

Pipsissewa, Prince's Pine

Charming evergreen leaves, pink and white, wax-like blooms appearing June, July, and August. Prefers acid soil. Native of dry woods, Canada to Georgia.

50c ea. \$1.40 per 3 \$5.50 per 12

Pitcher Plant; Sidesaddle Flower

More interesting than beautiful, but with showy, reddish-brown blooms and pitcher green and brown leaves. Native of wooded bogs, Canada to Florida.

50c ea. \$1.40 per 3 \$5.50 per 12

Quaker Lady; Bluets

Delicate, light blue flower is one of the joys of May. Prefers open wood and grassy slopes. Is native from Canada to Georgia and westward to Missouri.

35c ea. \$1.00 per 3 \$3.75 per 12

Rattlesnake Plantain

Beautiful evergreen, pale green and white leaves make this plant a favorite the year round. Inconspicuous, whitish blooms appear in July and August. Native of dry woods, Maine to Florida, westward to Minnesota.

45c ea. \$1.30 per 3 \$5.00 per 12

Sarsaparilla

A smaller and less showy plant than the Giant Sarsaparilla but most desirable for its habit of adorning large boulders.

35c ea. \$1.00 per 3 \$3.75 per 12

Sarsaparilla, Giant

The rich, dark purple berries gleaming against the vivid green foliage of this plant make it a joy of the late summer woods. Delightful flower clusters appear earlier but are not so showy as the fruit.

50c ea. \$1.40 per 3 \$5.50 per 12

Sedum

Excellent cover for rocks, will grow in shade, thrive somewhat better in sun. Native of eastern United States.

35c ea. \$1.00 per 3 \$3.75 per 12

Shooting Star

Charming, orchid-purple flower rising from a rosette of flat, green leaves. Native of moist, shaly banks from Pennsylvania to Georgia.

50c ea. \$1.40 per 3 \$5.50 per 12

Blue Phlox

Pitcher Plant

Rattlesnake Plantain

Sedum

Nursery Grown Wildflowers

Shortia

Black Snakeroot

Solomon's Seal

Spiderwort

Strawberry Vine

Shortia

Excellent ground cover, waxy green leaves, white flower appearing April and May. Requires shade. Native of wooded mountains of the Carolinas.

60c ea. \$1.75 per 3 \$5.50 per 12

Skunk Cabbage

The first bloom of spring, the actual flower is hidden beneath the gaily mottled, yellow, brown, green, and red hood. Large light green leaves follow the blossom. As the hood decays, an objectional odor is given off. The odor does not carry far and the plant is decorative and useful in some locations.

35c ea. \$1.00 per 3 \$3.75 per 12

Snakeroot, Black; Black Cohosh

An extremely desirable plant 3 to 8 feet high. Handsome, large, divided leaves, about which in July and August appear a tall plume of snowy white blooms. Native Maine to Georgia, westward to Wisconsin.

35c ea. \$1.00 per 3 \$3.75 per 12

Snakeroot, White

Attractive plant, 1 to 4 feet high, with masses of white blooms appearing August, September, and October. Valuable for massed effect in wooded areas, but should not be planted in small garden. Said to be poisonous to cows. Native of rich woodlands, Canada to Florida, westward to Nebraska.

35c ea. \$1.00 per 3 \$3.75 per 12

Solomon's Seal

Fascinating plant, grows 1 to 3 feet high. Small, yellow-greenish blossom appears in May and is followed by charming, dark blue berries. Native of rich woodland from Ontario to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Solomon's Seal, False; Wild or False Spikenard

One of the most beautiful and most satisfactory of the wild flowers. Handsome foliage and stunning plume of white flowers appearing May and June followed by handsome blue berries. Native of rich woodlands, Canada to North Carolina, westward to Wisconsin.

35c ea. \$1.00 per 3 \$3.75 per 12

Spiderwort; Spider Lily

Unusual, beautiful, iris-like plant. Blooms, an exquisite purplish-blue, appear June, July, or August. Thrives best in rich soil of woodlands. Native from New York to Virginia.

35c ea. \$1.00 per 3 \$3.75 per 12

Spring Beauty, Carolina or Wide-leaved

Very delicate, pinkish-white flower. Makes a beautiful spring ground cover for moist woodlands. Native from Canada to North Carolina.

35c ea. \$1.00 per 3 \$3.75 per 12

Strawberry Vine

Splendid ground cover beneath dense shade. 1 to 2 feet high. Dainty, white flower appears in May, gorgeous red fruit in fall. Native of woodland, Canada to Kentucky.

35c ea. \$1.00 per 3 \$3.75 per 12

Skunk Cabbage

White Snakeroot

False Solomon's Seal

Spring Beauty

Nursery Grown Wildflowers

Wild Strawberry

Nodding Trillium

Trumpet Vine

Twayblade

Strawberry, Wild

Desirable native Strawberry. Blooms, white, appear April and May. Small, red fruit is extremely luscious. Native in open, dry soil, Canada to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Toothwort

Attractive, dainty, white blossoms appear above fascinating, deeply cut leaves April and May. Native in rich woodlands, Canada to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Trillium, Nodding; Nodding Wake-Robin

White flower drooping beneath the large leaves appears May and June. Grows in rich, wet woods from Canada to Georgia.

35c ea. \$1.00 per 3 \$3.75 per 12

Trillium, Painted; Painted Wake-Robin

An astonishingly beautiful white flower splashed with magenta rises above three dark green leaves. Blooms in May and is a native of the cold, damp woods from Canada to Georgia.

35c ea. \$1.00 per 3 \$3.75 per 12

Trillium, Red; Wake-Robin or Birthroot

Rich, deep reddish-purple flower above three large leaves. Blooms in May or June in woodlands from Canada to North Carolina. Flowers have an unpleasant odor as they fade so are not desirable for house plants.

35c ea. \$1.00 per 3 \$3.75 per 12

Trillium Stylosum

Delicate, shell-pink bloom appears above dark green leaves usually in May.

35c ea. \$1.00 per 3 \$3.75 per 12

Trillium, White

Beautiful, white, lily-like flower rising above three large, dark green leaves. Blooms in April or May and is native of the deep, rich woods, Canada to North Carolina.

35c ea. \$1.00 per 3 \$3.75 per 12

Trumpet Creeper; Trumpet Vine

Rapid growing and most decorative vine. Scarlet, trumpet-like flowers appear in midsummer. Native of southeastern United States.

50c ea. \$1.40 per 3 \$5.50 per 12

Turtlehead; Snakehead

Stately, pinkish-white flowers sway on a 1 to 4-foot stem. Resemble turtle heads in shape and bloom during July, August, and September. Is a handsome addition to any wet woods or stream bank. Native from Canada to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Twayblade

A true orchid, fantastic appearance. Numerous flowers appear on a 4 to 10-inch stem May, June, or July. Native of the open woods, Maine to Georgia.

60c ea. \$1.75 per 3 \$6.90 per 12

Toothwort

White Trillium

Turtlehead

Nursery Grown Wildflowers

Bird's Foot Violet

Violet, Bird's Foot

Velvety, lilac-purple flowers with orange centers blooming May and June. Leaves deeply cut differing from other violets. Native, open woods and dry, sandy fields from Massachusetts to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Violet, Blue

The old, familiar, favorite, round-leaved, blue violet. Excellent ground cover for shade or sun. Native in deep, rich soil of eastern United States.

35c ea. \$1.00 per 3 \$3.75 per 12

Blue Violet

Violet, Canada

Dainty, white flowers with bright yellow centers appearing May, June or July. Native of mountainous woodlands from Canada to South Carolina.

35c ea. \$1.00 per 3 \$3.75 per 12

Canada Violet

Violet, Yellow

Stunning, shining yellow blooms above rich green leaves appear May and June. Native of the moist woods from Canada to Georgia.

35c ea. \$1.00 per 3 \$3.75 per 12

Yellow Violet

Virginia Creeper

Rapid growing vine, gorgeous autumn foliage. Thrives in dense shade or open sun. Native of eastern United States.

35c ea. \$1.00 per 3 \$3.75 per 12

Virginia Creeper

Wintergreen, Creeping or Spicy; Checkerberry

Beautiful, low, evergreen creeper with white drooping flowers appearing June to September. Delicious, bright red berries and edible foliage. Grows well near or under evergreens. Native of woodlands from Canada to Georgia.

35c ea. \$1.00 per 3 \$3.75 per 12

Creeping Wintergreen
Checkerberry

Wintergreen, Round-leaved American

Many waxy, white flowers drooping from a stem 6 to 20 inches high rising from rounded leaves at its base. Blooms June to August. Native of rich, dry woods from Canada to Maryland.

35c ea. \$1.00 per 3 \$3.75 per 12

Round-leaved Wintergreen

Wintergreen, Spotted

Charming evergreen, dark reddish-green leaves veined with white. Lovely clusters of white, bell-shaped flowers appear in July. Native of dry woods from Canada to Georgia.

35c ea. \$1.00 per 3 \$3.75 per 12

Spotted Wintergreen

Wildflowers are fascinating — because of their almost unexpected and impromptu appearances throughout the growing season. They have a delicate and subtle beauty all their own.

Nursery Grown Native Ferns

Beechfern

This attractive fern prefers the cool moisture of beech shade and grows naturally from Canada to North Carolina.

45c ea. \$1.30 per 3 \$5.00 per 12

Bracken, Eastern

Rather rank fern, spreads rapidly with root runners. Native of eastern United States on open hill-sides and banks. Should never be planted except where large areas are to be covered.

35c ea. \$1.00 per 3 \$3.75 per 12

Christmas Fern

Justly one of the most popular of all ferns. It retains its fronds well into the winter and often until the new fronds begin to uncurl in the spring. Prefers the deep, rich soil of heavily wooded slopes, grows naturally from Canada to Florida westward to Wisconsin and Texas.

35c ea. \$1.00 per 3 \$3.75 per 12

Cinnamon Fern

Grows 2½ to 3 feet in height. Fronds form beautiful, light green cone. Bears its spores on separate fronds and receives its name from their reddish brown color. Prefers the rich acid soil of stream banks. Native throughout eastern United States.

45c ea. \$1.30 per 3 \$5.00 per 12

Clubmoss

A beautiful fern ally growing naturally from Canada to the Carolinas. Enjoys the cool shade of woods along streams and bogs. Is rather difficult to transplant.

35c ea. \$1.00 per 3 \$3.75 per 12

Groundpine

Closely related to the ferns. Resembles a tiny pine tree. Likes wet wood and shady swamp edges. Grows naturally from Canada to Alabama. Is difficult to transplant.

35c ea. \$1.00 per 3 \$3.75 per 12

Ground Cedar

This dainty fern cousin naturally adorns the poor soil of dry, open woods from Canada to Alabama. Is difficult to transplant.

35c ea. \$1.00 per 3 \$3.75 per 12

Hay-scented Fern

Dainty, lace-like fronds. Spreads rapidly with root runners, should not be planted in limited areas. Excellent for ground cover on open, sunny banks, which it prefers. Native of eastern United States.

35c ea. \$1.00 per 3 \$3.75 per 12

Interrupted Fern

Grows 2½ to 3 feet in height. Interesting because it bears its dark brown spores on separate, small branchlets along the central part of the frond stem. Prefers the deep, rich soil of the woods along stream banks, grows in eastern United States.

45c ea. \$1.30 per 3 \$5.00 per 12

Lady Fern, Northern

This handsome fern seeks the rich soil of the deep wood and should not be planted in the open sun. It grows naturally from Canada to southern Pennsylvania and westward to Missouri.

35c ea. \$1.00 per 3 \$3.75 per 12

Beechfern

Nursery Grown Native Ferns

Maidenhair Fern

Ostrich Fern

Royal Fern

Ebony Spleenwort

Marginal Woodfern

Maidenhair Fern

The daintiest and probably the most popular of all native fern. Prefers the deep, rich soil of the dense woods. Native throughout eastern United States to Georgia and Louisiana.

35c ea. \$1.00 per 3 \$3.75 per 12

New York Fern

This dainty fern likes acid soil, wet woods, and shady bogs. Valuable ground cover. Spreads with root runners. Grows naturally from Canada to Georgia.

35c ea. \$1.00 per 3 \$3.75 per 12

New York Fern

Ostrich Fern

This tall, vigorously growing fern likes the deep, rich soil of wooded bottom lands, growing naturally from Canada to Virginia and westward to Alaska. Generally, it prefers shade, though it sometimes grows in the open sun, but in these cases usually the fronds brown early in the season.

45c ea. \$1.30 per 3 \$5.00 per 12

Polypody

Great mats of this beautiful fern grow luxuriantly over huge rocks or on steep banks. Prefers shade and grows naturally from Canada to Georgia.

35c ea. \$1.00 per 3 \$3.75 per 12

Polypody

Royal Fern

The most graceful of all the large ferns flourishes in moist, acid soil. Native of eastern Canada, United States, and South America.

45c ea. \$1.30 per 3 \$5.00 per 12

Sensitive Fern

This handsome, showy fern should never be planted in a limited space because it spreads rapidly with root runners. However, it may be beautifully used along stream banks or in bogs where there is considerable area to cover. Native throughout eastern United States.

35c ea. \$1.00 per 3 \$3.75 per 12

Sensitive Fern

Spleenwort, Ebony

Dainty small fern, extremely hardy, very useful where space is limited, prefers the shade of a limestone section, grows naturally from Pennsylvania to Florida.

35c ea. \$1.00 per 3 \$3.75 per 12

Walking Fern

This fascinating fern prefers limestone rocks in the deep woods, grows naturally from Canada to Georgia.

35c ea. \$1.00 per 3 \$3.75 per 12

Woodfern, Evergreen; Marginal Woodfern; Leatherwood Fern

This beautiful and extremely popular fern retains its fronds well on into the cold weather. Prefers rich woodland slopes from Canada to Alabama and westward to Missouri.

35c ea. \$1.00 per 3 \$3.75 per 12

Walking Fern

Nursery Grown Native Shrubs

Alder, Black

Rapid growing shrub, prefers the deep, rich soil of wet meadows and stream banks. Flowers appear in early spring: long, graceful catkins in fall.

3-4 ft.	\$3.00	5-6 ft.	\$7.50
4-5 ft.	\$5.00		

Black Alder

Azalea Arborescens

Beautiful shrub with white, sweet-smelling flowers blooming May to June. Requires rich soil and blooms best in the open sun or filtered light.

2-3 ft.	\$4.00	4-5 ft.	\$8.00
3-4 ft.	\$6.00		

Azalea, Flame

Brilliantly colored blooms ranging in shades from light yellow to deep orange appear usually in May, sometimes in June. Shows to best advantage in mixed plantings, especially where broad-leaved evergreens and hemlock are used.

1-2 ft.	\$4.00	3-4 ft.	\$9.00
2-3 ft.	\$6.00		

Azalea, Pink; Pinkster Flower

Beautiful, pink and white blossoms appearing usually in May. This vigorously growing shrub is a general favorite and fits in any woodsy setting. Blooms more profusely in filtered light in the shade of deep woods.

1-2 ft.	\$4.00	3-4 ft.	\$9.00
2-3 ft.	\$6.00		

Azalea, White Swamp

Exquisite, white blooms appear April or May. Native of bogs and swamps. Prefers deep shade or filtered light.

2-3 ft.	\$4.00	4-5 ft.	\$8.00
3-4 ft.	\$6.00		

Bladder Nut, American

Tall, graceful shrub, delicate light green leaves. Dainty, white blossoms appear usually in May, followed by bladder-like seed pods. Interesting, striped bark on mature trunk. Prefers rich, moist soil. Thrives in woodland shade.

3-4 ft.	\$3.00	5-6 ft.	\$5.50
4-5 ft.	\$4.00		

Buttonbush

Splendid, bog-loving shrub. White flowers appearing July and August. Thick, glossy, dark green leaves. Sometimes grows 8 to 10 feet high. Thrives in open or partially wooded, moist ground.

2-3 ft.	\$3.00	4-5 ft.	\$5.00
3-4 ft.	\$4.00		

Chokeberry, Black

Graceful shrub with glorious, white flowers appearing early spring followed by black berry-like fruit very attractive to the birds. Prefers moist rich woodlands.

18-24 ins.	\$.75	3-4 ft.	\$3.00
2-3 ft.	\$1.50		

Chokeberry, Red

Similar to the Black Chokeberry except that the fruit is red.

18-24 ins.	\$.75	3-4 ft.	\$3.00
2-3 ft.	\$1.50		

Pink Azalea

White Swamp Azalea

Nursery Grown Native Shrubs

Red Twig Dogwood

Black Haw

Hercules Club

Huckleberry

Dogwood, Red Twig or Osier

Dramatically clings to the perilous slopes of stream banks, preventing erosion and adding charm and beauty with dainty clusters of white flowers followed by greenish-white fruit. Particularly attractive in winter because of its bright red twigs.

2-3 ft.\$1.50

3-4 ft.\$2.00

Elder, Common

An inspiring shrub with showy, white blossoms followed by almost black berries. Will form a dense thicket, spreading by root runners. Prefers rich, moist ground.

2-3 ft.\$2.00

4-5 ft.\$5.00

3-4 ft.\$3.50

Common Elder

Haw, Black

An interesting shrub with dainty blossoms and almost black fruit. Plum-shaped leaves. Prefers the rich soil of well drained woodsy slopes.

3-4 ft.\$3.50

4-5 ft.\$4.00

Hazelnut

This handsome and decorative large shrub or small tree is a familiar sight over a wide area of eastern United States in rich meadow lands or along stream banks where the soil is deep and fertile. It transplants readily when small. Its fruit is an universal favorite.

1-3 ft.\$2.00

3-4 ft.\$4.50

Hazelnut

Hercules Club

Decorative, rapid-spreading shrub. Beautiful clusters of creamy white flowers, black berries. In spite of its charm it should be used carefully and not planted where it will dominate other shrubs.

3-4 ft.\$3.00

4-5 ft.\$5.00

Holly, Deciduous; Winterberry

A handsome show in fall with clusters of bright red berries which hang on well into early winter. Grows naturally in rich, open bogs.

2-3 ft.\$3.00

4-5 ft.\$6.00

3-4 ft.\$4.50

Deciduous Holly

Huckleberry, Early Low

Dainty blossoms, beautiful foliage, delicious fruit. Excellent for poor, shady slope. Grows best in poor, sandy soil.

6-12 ins.\$.75

12-18 ins.\$1.75

Huckleberry, High Brush

Very similar to Early Low Blue-Berry but prefers the rich soil of moist woodlands.

2-2½ ft.\$2.50

3-4 ft.\$4.00

2½-3 ft.\$3.00

4-5 ft.\$5.00

Wild Hydrangea

Hydrangea, Wild

This attractive shrub is at home in the rich soil of the deep woods. Its showy clusters of beautiful white blooms appear in midsummer.

2-3 ft.\$3.00

3-4 ft.\$4.00

Nursery Grown Native Shrubs

Indian Currant

Nursery Grown Native Trees

White Ash

Beech

Gray Birch

Red Cedar

Coffee Tree

Ash, White

This rugged, stately tree is the most familiar among the Ash group in the eastern United States. It often grows to a height of 120 feet. Prefers the rich soil of lowlands or rich hillsides. It is an extremely valuable tree in the landscape and is a difficult tree to transplant after it has attained any size.

4-6 ft.	\$3.50	8-10 ft.	\$ 7.50
6-8 ft.	\$5.50	10-12 ft.	\$10.00

Beech

The Beech is magnificent with a tremendous, smooth-barked, gray trunk and huge wide-spreading branches, crowned with an artistically delicate tracery of twigs which form a regular shape and offers support for an extremely dense canopy of dark green leaves. It frequently grows to a height of over 100 feet with a straight trunk 3 to 4 feet in diameter. It prefers fertile, well-drained soil and has a mat of deep and widely spreading roots. It grows from Maine to Florida, westward to Texas and through part of Wisconsin.

6-8 ft.	\$10.00	10-14 ft.	\$15.00
8-10 ft.	\$12.50		

Birch, Gray

One of the most graceful of all trees. The Gray Birch is small, seldom attaining a height of over 20 or 30 feet. When young, its bark is creamy white. Grows well on dry slopes and seems to like barren soil. It makes a beautiful contrast against a background of pine or spruce. It ranges naturally along the Atlantic coast from Maine through the northern part of Virginia.

Birch, Yellow

3-6 ft.	\$5.00	6-8 ft.	\$8.00
--------------	--------	--------------	--------

Cedar, Red

This pyramidal tree is native on rocky hillsides and sandy flats from Maine to Central Florida, west to central Texas and north to North Dakota. It is tremendously valuable for certain landscape effects. Transplants readily and grows to a height of 40 to 50 feet. Its trunk sometimes reaches 3 feet in diameter.

4-5 ft.	\$6.00	6-8 ft.	\$11.00
5-6 ft.	\$8.00	8-10 ft.	\$15.00

Coffee Tree

This truly American tree is so outstandingly beautiful with its dainty foliage and rough, gray bark, one wonders why it is not more commonly used for ornamental planting. It grows 100 feet high with a trunk often 4 feet in diameter and offers high shade for lawns. It should be transplanted when small. The Coffee Tree ranges naturally through western New York, western Pennsylvania, West Virginia, Tennessee, through most of Alabama and northward to southern Wisconsin.

Nursery Grown Native Trees

American Crab-Apple

Flowering Dogwood

White Elm

Fringe Tree

Sweet Gum

Crab-Apple, American

This low, round-headed, decorative tree is generally a favorite wherever it appears. It grows most naturally from Canada through western New York to Georgia, west to Arkansas and Iowa. It seldom grows to a height of more than 24 feet. Prefers rich, well-drained soil and grows in the woods where its light pink blossoms are beautifully set off against the background of the taller trees.

2-3 ft.	\$2.50	4-5 ft.	\$5.00
3-4 ft.	\$3.50	5-6 ft.	\$7.00

Flowering Dogwood

The Dogwood is the showiest and most dramatic as well as probably the most popular and beautiful of all the American trees. Low, round-headed when given a chance to spread, seldom growing to a height of more than 40 feet with a trunk greater than a foot in diameter. It prefers well-drained, fertile soil as it blossoms more profusely in the open, and transplants readily at almost any size. The large, beautiful, white flowers of spring are followed by rich green, round foliage which turns brilliant scarlet in the autumn. The fruit colors bright red usually before the leaves turn and is an attractive food for many birds. It grows naturally from central New York to northern Florida and westward to eastern Texas and eastern Iowa.

4-5 ft.	\$ 7.00	8-10 ft.	\$15.00
6-8 ft.	\$10.00	10-12 ft.	\$22.00

Elm, White

High, gracefully spreading head, interlaced branches and "Y" crotches make the crown of the Elm unmistakable when silhouetted on the horizon. The American or White Elm is one of our most graceful and beloved trees. It frequently attains a height of 100 to 125 feet and has a huge rough-barked trunk, 6 to 10 feet in diameter; its branches divide in an unusual vase-like form. Grows fairly rapidly when planted 6 to 10 feet in height. It is found from northern Maine, southward through a large part of Florida and Texas, and westward to the western border of Montana and Wyoming. Its natural habitats are rich bottom lands and stream banks.

3-4 ft.	\$3.00	6-8 ft.	\$ 7.50
4-5 ft.	\$4.50	8-10 ft.	\$10.00
5-6 ft.	\$6.00	10-12 ft.	\$12.50

Fringe Tree

This most beautiful tree is frequently considered a shrub as it seldom grows more than 30 feet in height and usually with a divided trunk. Because of its masses of white blossoms it has several common names: Old Man's Beard, Grandfather's Beard, and Snow Flower Tree. It prefers the rich soil of stream banks and transplants readily.

3-4 ft.	\$5.00	5-6 ft.	\$10.00
4-5 ft.	\$7.00	6-8 ft.	\$14.00

Red Maple

Striped Maple

Sugar Maple

Pin Oak

Red Oak

Maple, Red

This is one of our showiest trees, raising its irregular, flaming crown to a height of 100 feet, frequently with a 3-foot trunk. The twigs are often very red as are its blossoms when they first appear in early spring, and the fall foliage turns to a bright scarlet. It prefers the bottom lands, but frequently wanders far up on the hillsides. Ranges over the entire eastern United States.

5-6 ft.	\$4.00	8-10 ft.	\$ 8.00
6-8 ft.	\$6.00	10-12 ft.	\$12.00

Maple, Striped

A small, beautiful tree seldom reaching a height of more than 30 feet. Charming because of its large, light green leaves and its striped trunk. Native of the deep woods from Canada to Tennessee.

4-5 ft.	\$4.50	6-7 ft.	\$ 8.50
5-6 ft.	\$6.00	7-8 ft.	\$10.00

Maple, Sugar

This wonderfully stately tree with its pyramidal crown grows to a height of somewhat over 100 feet with occasionally a trunk 5 feet in diameter. It is undoubtedly the most desirable of all Maples, beloved for its large, yellow or bright red foliage in autumn and prized for its delicious maple syrup. Transplants readily. This tree much prefers deep fertile soil and ranges over the entire eastern part of the United States.

4-6 ft.	\$4.50	6-12 ft.	\$10.00
--------------	--------	---------------	---------

Oak, Pin

This particularly distinct variety of Oak is extremely popular for street and lawn planting. It sometimes grows 70 to 80 feet in height; has a smooth bark and develops a single leader with a multitude of small branches whorled about this stem. It naturally grows in deep, rich soil on the banks of streams and ponds, but does extremely well in almost any environment. Ranges from central Pennsylvania to southern Tennessee, westward throughout most of Missouri. Transplants well almost any size.

6-8 ft.	\$8.00
--------------	--------

Oak, Red

This gorgeous pyramidal tree lifts its stately head to a height of 100 feet. It prefers deep rich soil and is famous for its brilliant autumn foliage which seems to blaze from many fertile hillsides. Ranges from Canada to South Carolina and westward to Dakota.

6-8 ft.	\$8.00
--------------	--------

Oak, White

This magnificent tree is one of the most useful found in American forests. It commonly attains a height of 100 to 140 feet with a trunk diameter of 4 to 5 feet. Its rich colored foilage makes it especially handsome in late autumn and it retains its leaves well on into the winter. Prefers deep, rich soil and grows generally over a large part of the United States from central Maine to northern Florida. It is difficult to transplant after it has attained a diameter much over 2 1/2 inches.

Nursery Grown Native Trees

Papaw

Papaw

The Papaw with its interesting head and delicious fruit is scarcely more than a shrub. It seldom reaches a height of more than 25 or 30 feet. Prefers the fertile soil of the lowlands and grows naturally from western New York, southward to Florida, westward to Texas and Nebraska. Grows comparatively rapidly and transplants satisfactorily if proper care is taken.

3-4 ft.\$3.50

4-5 ft.\$5.00

Persimmon

This artistic and colorful tree seldom reaches more than 45 feet in height with a trunk sometimes 2 or 2½ feet in diameter. Its colorful fruit is a general favorite, and it should certainly be planted much more frequently as it transplants fairly well up to a great size. Grows naturally from central Pennsylvania, southward throughout Florida and westward to central Texas and eastern Kansas.

4-5 ft.\$4.75

7-8 ft.\$7.00

5-6 ft.\$5.50

Pine, White

This magnificent monarch of the forest is stately and beautiful with its pyramidal crown and iridescent green foliage the entire year around. Grows frequently to a height of 180 to 200 feet with a trunk 4 to 5 feet in diameter. It transplants readily and is attractive at all stages. Grows naturally from far up in Canada, throughout the New England States, New York, most of Pennsylvania, southward along the Appalachian Mountains to Tennessee.

5-6 ft.\$20.00

Red-bud—Judas Tree

This small, artistic, round-headed tree occasionally grows to a height of 45 feet. Its exquisite profusion of pink flowers form a beautiful contrast in the early spring with the white flowers of the Dogwood. It prefers rich, fertile ground and will grow either in the shade or in the open. Grows throughout most of Pennsylvania, southward along the foothills to Georgia, Alabama, and Mississippi, westward to Oklahoma, Kansas, and Nebraska.

4-5 ft.\$4.00

6-8 ft.\$7.50

5-6 ft.\$5.50

Sour Wood

This rather irregularly crowned tree, which seems to actually blaze with color in the autumn, frequently grows to a height of 50 feet. It prefers fertile slopes. Transplants easily, and its use should ever increase. It has wonderful white blossoms and its brilliant fall foliage is unsurpassed. Grows from central Pennsylvania, westward to central Arkansas, southward to northern Florida and eastern Texas.

4-5 ft.\$5.00

6-7 ft.\$10.00

5-6 ft.\$7.50

Tulip

This stately tree grows tall and straight as an Indian with its erect trunk sometimes branchless to a height of 100 feet. It belongs to the Magnolia family and is one of our most magnificent flowering trees.

Individuals

WE are sure that plants are individuals with distinct individualities. Some of these individuals can be transplanted much more readily than others of the same species. Some respond differently to the same environment. It is our privilege and our joy to study the reaction of many plants to various changes and to help individual plants as well as groups of plants gain strength and vigor. We like to feel that these plants which we have assisted nature in raising are finding a new home where they will be happy and well cared for. Therefore, we ask you to keep them thoroughly watered during the hot dry spells in summer and to "send your evergreens into the winter wet." Keep your wildgarden free of undesirable weeds, thistles, ragweed, nettles, poison ivy and Japanese honeysuckle, which are a few of your serious menaces. Do not pile heaps of leaves on your wildgarden in the fall. Do not remove the natural fall of leaves from the wildgarden in the spring. Remember even the tiniest plant is used to coming up through natural leaf fall when it wakes up in the spring. It needs those leaves for mulch and later on for food. Do not cultivate your wildgarden. The roots are delicate and generally close to the surface and are easily disturbed.

Our Service To You —

Naturalistic Lanscaping is truly a specialty—a specialty which requires ability, artistry and quality workmanship. It is important to have a close understanding of what actually is most fitting for your own garden. There is a warm relationship between well planted grounds and your type of home in its particular setting.

A garden that is yours and really yours should have your taste of individuality in it somewhere. We cooperate with you one hundred percent in working out a favorable and interesting plan which will be different.

Natural gardens actually have great simplicity. They require but little maintenance. Such gardens are executed with the idea of an all year round harmony in mind, breaks the monotony and gives you something interesting to look forward to as the seasons approach. Gardens of this type are developed by appropriations which meet your budget.

The work of VICK'S WILDGARDENS is known throughout the eastern United States. Our objective on your property is to plan and create with you a real effect for your long-lasting enjoyment. Our workmen are artists, skillfully trained, and above all have a true love for their work and their accomplishments.
